FOR OUR VACANCIES!

GLOBAL HIGHTECH TEAMWORK

IHI Hauzer Techno Coating is an international high-tech organization, with over 210 employees and branches in Venlo, Barcelona, Yokohama, Shanghai and Olten. At our home base in Venlo, we develop and assemble plasma coating systems with vacuum, sputtering and arc evaporation technology, that find their way around the globe, to customers with notable names. At this medium-sized company, lines are still short and you can make a difference. Hauzer was founded in 1983 and became part of the Japanese IHI Group in 2008. The IHI Group is a group of more than 210 companies totalling up to 29,000 employees.

ALLROUND TECHNICIAN

The job of Allround Technician is a real world job. You will be working in international teams of colleagues and customers, sharing ideas and developing your expertise. Creative, responsible and flexible. This world job will take you further.

WHAT CHARACTERIZES THIS JOB?

- You will assemble, install and test the mechanical and electrical part of the plasma coating system at Hauzer Venlo, working in project teams with colleagues from different disciplines, levels and nationalities. Eventually you will be able to be in lead during the assembly phase, directing the assembly team.
- You are also responsible for the installation or modification of the machine at customers' sites worldwide. You will provide service to the customers and solve technical issues.
- Within the plasma coating systems different techniques come together, like high temperatures, vacuum technology, high electricity voltages and sputter- & arc technology. Because of this diversity of techniques you will have to deal with complex challenges.
- You will be trained to become an Allround Technician within 2-3 years, being able to assemble, test and install a machine independently.

WHAT DO WE ASK?

- A MBO level 4 degree in electrics or mechanics and ongoing technical competences. Experience with electrics is a plus;
- Similar working experience within a project based machine building company, preferably internationally;
- Willingness to travel worldwide to customers for up to 40% of the time;
- Excellent verbal and written command of the English language;
- Affinity with vacuum technology is a plus;
- You can work independently as well as within a team;
- Willingness to learn and develop knowledge;
- Proactive and a positive approach;
- In possession of a driver's license.

WHAT DO WE HAVE TO OFFER?

Apart from the primary and secondary conditions being in accordance with market values, Hauzer offers an environment with room for personal development.
