

GO NEW WAYS!

## Software Developer (FH/HF)

Let's talk plain language. With us you will not find a "JOB" or a "position", but tasks, challenges and areas of achievement. We give you the chance to develop and that you can move something as a motor.

We, IHI Bernex AG, are an established, internationally active company, based in Olten (SO), in the high-tech sector. We are supported by around 50 employees from over ten nationalities. As a machine and plant engineering specialist, we set standards for CVD coatings. With outstanding teams, we serve customers worldwide who are looking for the best solutions for chemical vapor deposition, aluminumization or infiltration (CVD, CVA and CVI).

### THIS IS YOUR AREA OF RESPONSIBILITY

- Analysis, conception, design and implementation of proprietary applications with proven and new technologies
- Further development of existing applications (application maintenance and support, troubleshooting, continuous improvements of the existing code base)
- Implementation of training courses for system users
- Support from our customers
- Close cooperation with our process engineers
- Independent implementation within the framework of the agile process methodology

### WHAT YOU BRING WITH YOU

- Completed apprenticeship as an electronics or automation technician with further training as an engineer FH / software technician TS or similar
- PLC programming knowledge (Rockwell / Siemens) is required, HMI programming knowledge, databases, Vis. Basic, C/C++ would be an advantage
- Good knowledge in software development (analysis, design, programming, testing), as well as knowledge in software engineering methods (OOA, SOA), design patterns and agile software development (PLC and HMI)
- Professional experience in the field of plant engineering is an advantage
- Team spirit, creativity and enjoyment of project-related work
- Fast comprehension and flexibility
- Very good knowledge of German and English

### WHAT YOU GET FROM US

- Ingeniously central: Your workplace is in Olten, near the SBB train station
- Actions instead of words: flat hierarchies and short decision-making processes
- Full support: appreciative company culture and strong team spirit
- New ways: space and openness for your ideas
- 1a future: personal and professional development
- Goal in sight: regular career discussions and concrete implementation planning

If you want to perform and achieve extraordinary things, then apply with us now.
