FOR OUR VACANCIES!

GLOBAL HIGHTECH TEAMWORK

IHI Hauzer Techno Coating is an international high-tech organization, with over 210 employees and branches in Venlo, Barcelona, Yokohama, Shanghai and Olten. At our home base in Venlo, we develop and assemble plasma coating systems with vacuum, sputtering and arc evaporation technology, that find their way around the globe, to customers with notable names. At this medium-sized company, lines are still short and you can make a difference. Hauzer was founded in 1983 and became part of the Japanese IHI Group in 2008. The IHI Group is a group of more than 210 companies totalling up to 29,000 employees.

PROCESS ENGINEER

WHAT CHARACTERIZES THIS JOB?

You will contribute to the realization of coating equipment by specification of process requirements, optimization of the coatings and doing the commissioning and acceptance of systems at customer locations.

You will develop and produce coating solutions for potential customers, transfer these into working production systems at the customers and be involved in development of new technologies and processes. This is executed in an environment with a variety of customers and projects, where own initiative, equipment knowhow, interaction and team work are vital for success.

You will be part of the Process Engineering Department, a team of 15 colleagues in Venlo and several colleagues in Asia and Spain.

WHAT DO WE ASK?

- At minimum a Master degree (MSc) with 3-5 years of industrial experience in a similar role;
- Thorough knowhow on basics of plasma physics;
- Interest and skills in troubleshooting equipment;
- Passion for technology and experience in working in project teams;
- Relevant experience in one of the following fields: Sputtering (HIPIMS, DMS,...) and/or Arc technology, PVD coatings for tools, PACVD / DLC coatings for tribological applications;
- You speak English fluently and preferably Dutch, German or Chinese as well;
- Willingness to travel worldwide on a regular base (30%).

WHAT DO WE HAVE TO OFFER?

Apart from good primary and secondary conditions, Hauzer offers an environment with room for personal development and initiative while working in an enthusiastic and dedicated team of colleagues who strive for quality and innovation.
